Constitutional Facial Acupuncture Renewal™

New!! Facial syndromes and treatment protocols, Western biomedical & Oriental medicine models

This class will teach the acupuncturist how to assess and customize an acupuncture treatment, by ascertaining the specific meridian involvement in the aging process of the patient. This seminar will also cover important contraindications for treatments, prescreening of patients, and facial acupuncture intake forms and release forms, to ensure safe and successful treatments.

The special function of points for *Constitutional Facial Acupuncture Renewal™*, in particular, the muscular tonification/sedation techniques of French acupuncturist Jacques Lavier and the use of facial motor points for treatment of the neck muscles, will also be introduced.

Syndromes covered will include Bell's palsy, wind stroke, migraines, etc.

Practitioners/advanced students who have previously completed this seminar may choose to re-take it as a "refresher" course for half price. Cost depends upon registration date, and is calculated from the undiscounted rate, rather than the early registration discount.

***More information about individual modules may be found online at www.chiakra.com/program.htm.*

Please note: \$25 non-refundable materials fee is to be paid directly to the Instructor for herbal products, creation/maintenance of a Referrals web listing, & certificates of completion.
